PAOLO ANDREI A. ENERIO

+63 915 780 5882 • paoloenerio@gmail.com • Cabuyao, Laguna

EDUCATION

Mapúa Malayan Colleges Laguna **2022 – PRESENT**
Bachelor of Science in Computer Science
Running GPA: ***1.31***

SOFTWARE PROJECTS

Space Frontier **2023**

- Developed a Windows-based sci-fi "Bullet Hell" action game using C#, .NET Framework, and WinForms.

Gesture Tracking Application **2025**

- Built a real-time gesture control application using Python and OpenCV to translate camera-tracked hand movements into system commands.

STELLAR Digital Game-Based Learning Application **2026**

- Engineered a visual novel-style digital game-based learning application using Unity and C#, featuring three distinct game modes tailored to support the development of reading comprehension for Grade 4–6 students.
- Integrated an LLM-powered companion to deliver real-time scaffolding, providing context-aware hints and vocabulary assistance during gameplay.
- Developed an automated AI task generation system to programmatically create reading comprehension assessments based on narrative content.
- Developed a web-based dashboard application that supports data-driven learning intervention for Grade 4–6 students.

SKILLS & CERTIFICATION

- Python Development
- C# Development
- Full Stack Development
- Mobile Development
- Machine Learning
- Computer Vision
- COMPTIA Tech+
- Google Cloud Computing Foundation

EXTRACURRICULAR

Junior Philippine Computer Society - Mapúa MCL (***Auditor***) **2023 – 2024**
Junior Philippine Computer Society - Mapúa MCL (***President***) **2024 – 2025**
Junior Philippine Computer Society - Mapúa MCL (***Member***) **2025 – PRESENT**

SEMINARS & WORKSHOP

AI Summit Unlocking the Future: Exploring different Opportunities for Computer Science in Artificial Intelligence **2024**
Architecting the Future with Decentralization: An Introduction to Blockchain **2025**
Redefining Intelligence: What it means to be Human in an AI World **2025**
National AI Prompt Design Challenge (***Participant***) **2025**
Data Analytics Workshop and Competition - Mapúa Malayan Colleges Laguna (***Participant***) **2025**
Code & Quanta: A Seminar on Modern Computing and Security **2026**
